土産

総理訪沖の際の土産品に因り  
米側見解 (8/4 米産協会入手)

秘  
まで

We accept, in principle, a Japanese proposal to pay a large share of public education costs in the Ryukyus, on the understanding that the detailed plans and funds will be processed through the Consultative and Technical Committees.

We have no objection to the Prime Minister making a general statement that Japan has the intention of providing aid for this purpose. We would appreciate it if the Prime Minister, when he makes a statement concerning support for public education, would also state that the details will be handled through the normal channels of the Committees.

We have no objection to the Prime Minister making a general statement of intention to make long-term, low-interest loans to Ryukyuan public financial institutions, on the understanding that the detailed plans and funds will be processed through the two Committees. We would, however, consider it undesirable for Japan to make such loans to the Ryukyuan Development Loan Corporation since the RDLC's revenues are prescribed under PL-86-629.
